Add a Permission

3 options selected

Copy your api key here.

Note: Check instructions on how to generate your Api-key

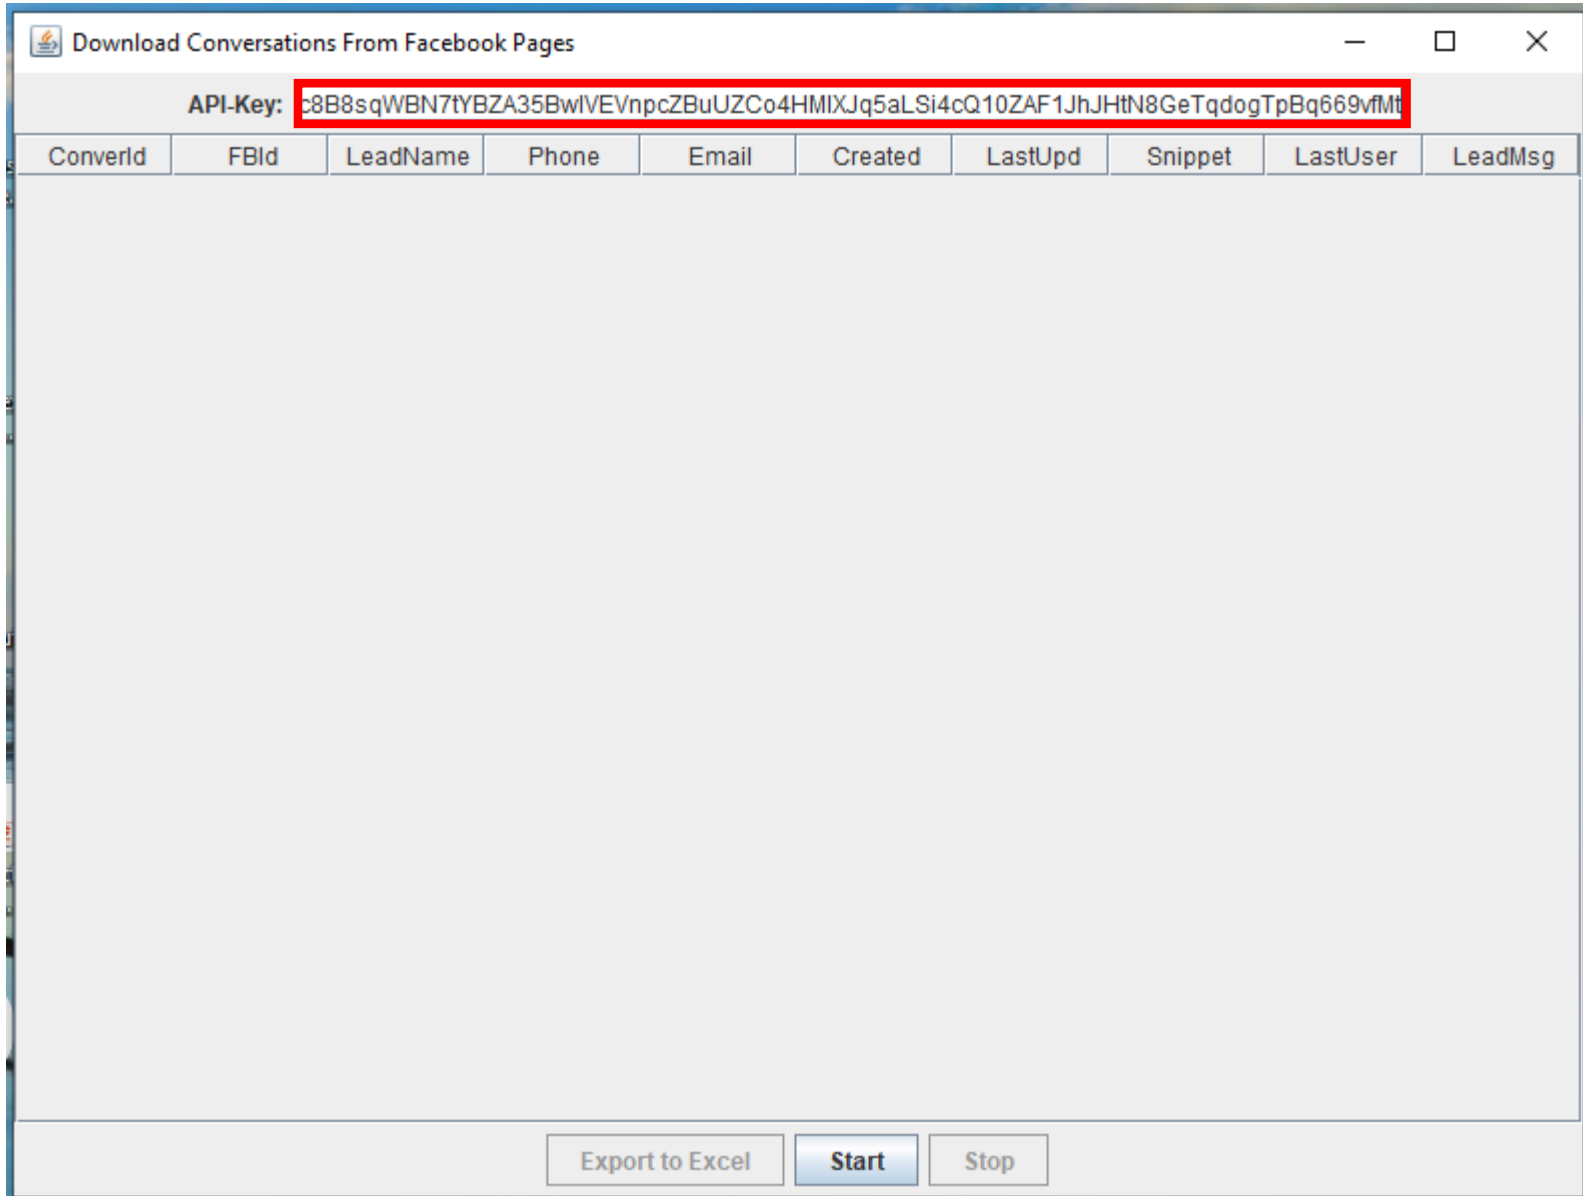

Step 2: Open Conversave.exe

Click on the Conversave.exe Icon

Name	Date modified	Type	Size
 Conversave	5/14/2023 12:42 PM	Application	19,723 KB

Step 3: Put the API-Key

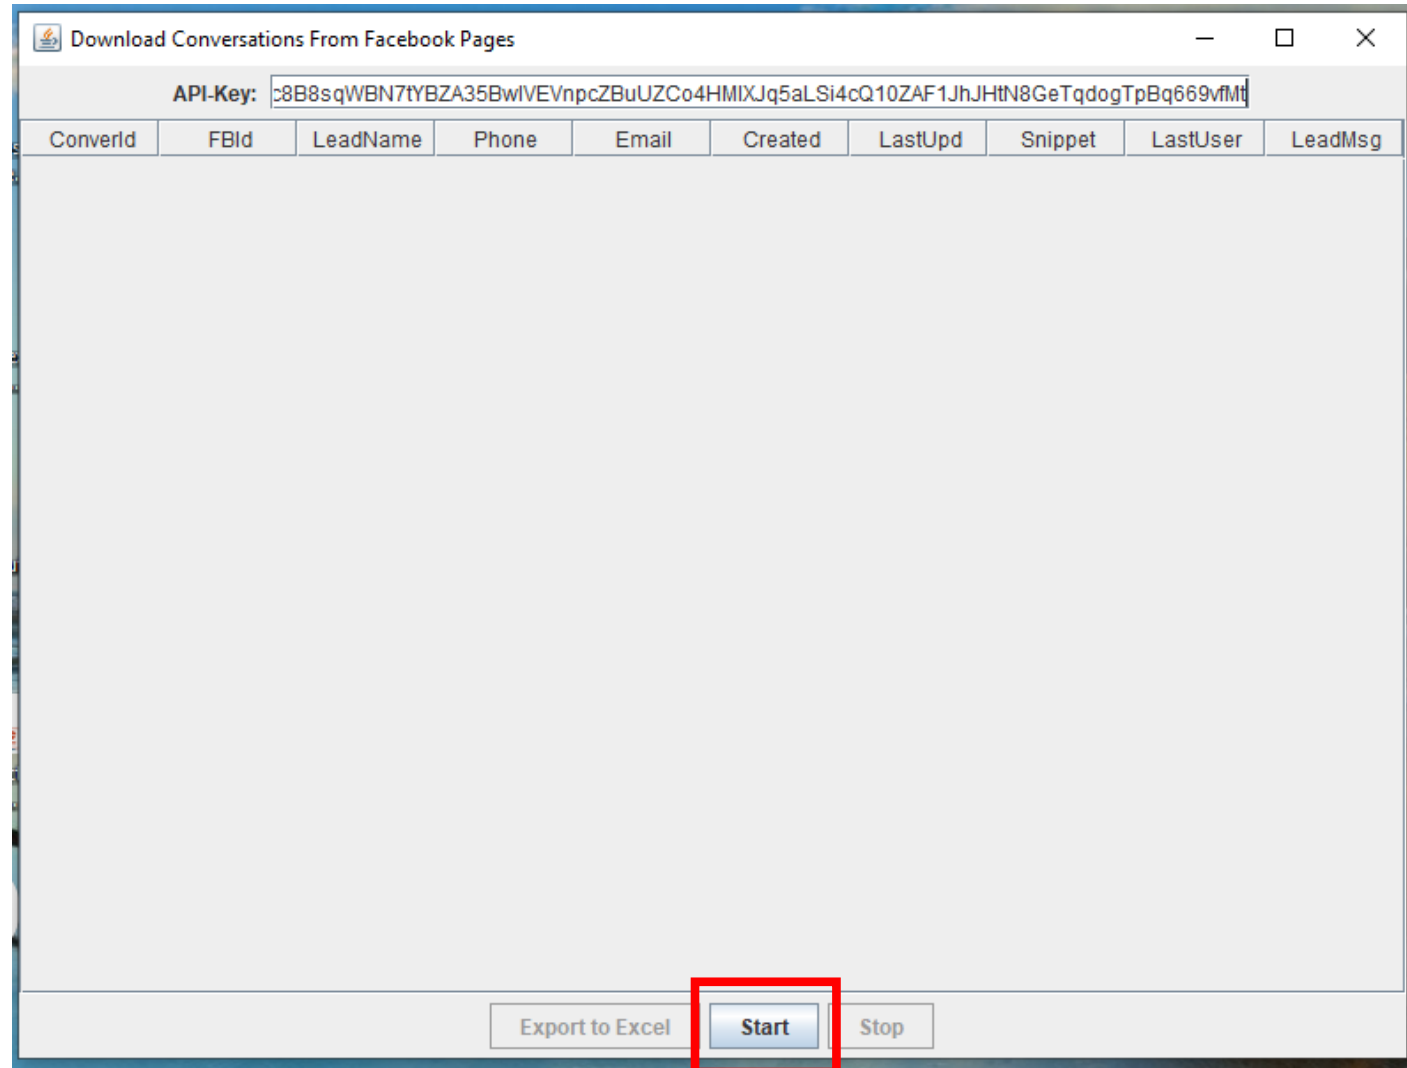

The screenshot shows a software window titled "Download Conversations From Facebook Pages". Inside the window, there is a field labeled "API-Key:" followed by a long alphanumeric string: "c8B8sqWBN7tYBZA35BwlVEVnpcZBuUZCo4HMIXJq5aLSi4cQ10ZAF1JhJHtN8GeTqdogTpBq669vMf". This field is highlighted with a red rectangular border. Below the API-Key field is a table with the following columns: ConverId, FBId, LeadName, Phone, Email, Created, LastUpd, Snippet, LastUser, and LeadMsg. The table is currently empty. At the bottom of the window, there are three buttons: "Export to Excel", "Start", and "Stop".

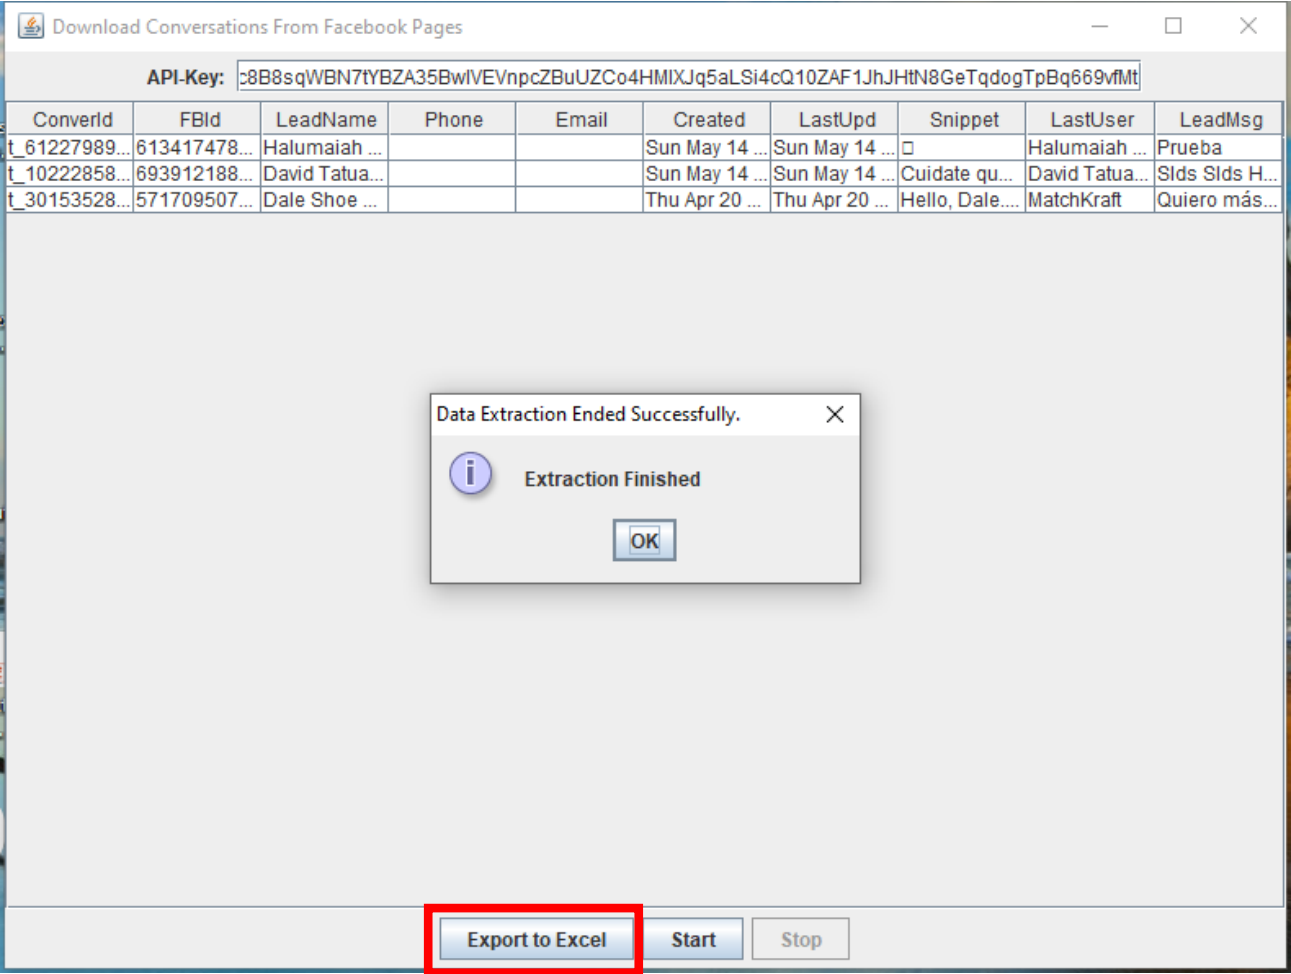

ConverId	FBId	LeadName	Phone	Email	Created	LastUpd	Snippet	LastUser	LeadMsg
----------	------	----------	-------	-------	---------	---------	---------	----------	---------

Export to Excel Start Stop

Step 4: Click Start

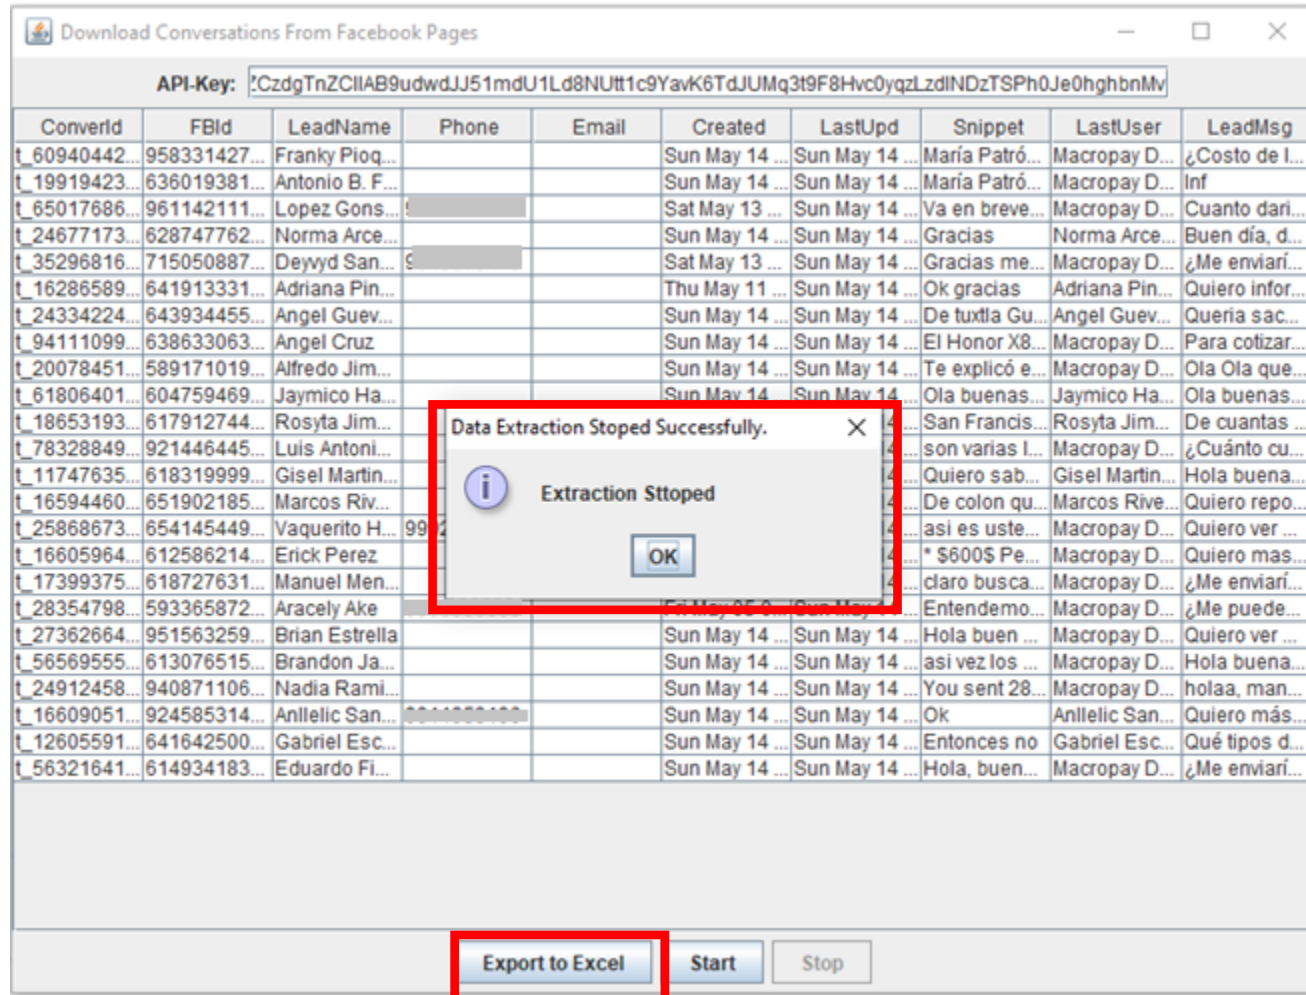

Step 5: Export the data to Excel

The Stop Button

If you have numerous conversations, it is advisable to utilize the stop button to halt the process. Otherwise, you would need to wait until all the conversations have finished downloading.

As you can see the export to Excel button is activated.
